

PROJECT PROFILE

Attach roof plan/sketch with dimensions

- QUOTE REQUEST: Needed: ___/___/___
 Budget Final
- WARRANTY AUTHORIZATION REQUEST
 (Pre-Installation)

Installation Contractor: _____ City/State: _____
 Contact: _____ Phone: (____) _____ Email: _____

Building Name: _____ **Owner Name:** _____
 Building Address: _____ City / State: _____
 City / State / Zip: _____
 (zip code is needed to calculate freight if applicable) Building Use: _____

- Building Type:** Steel / Masonry PreEngineered Building Other: _____
- Roof Support: Open Framing (purlins, bar joists) Wood Truss/Beams Concrete (structural)
 Solid Metal Deck: Gauge: _____ Plywood Deck: _____" Concrete (light weight)
- Insulation: Existing type: _____: Thickness: _____ inches
 New type: _____: Thickness: _____ inches

- Proposed Roof:** Total new metal roof area: _____ squares square feet
- New Construction (slope: ___:12) How many buildings are included: _____
 Reroof (existing slope: ___:12) Eave height: _____ (most common)
- Panel System: ML200 (2" seamed) SL175 (snap lock) SL150 (snap lock)
 gauge: _____ ML150 (1-1/2" seamed) ML150C (1-1/2", curved) Other: _____
- Finish: Bare galvalume Standard color Custom Color: _____
- Is a Weathertightness Warranty required? no yes (Term: ___ years)
 Are Union submittal drawings required? no yes (Purpose: permit shop engineering)
 Are engineering calculations required? no yes

Describe Scope of Work (e.g. Metal reroof project over a built-up roof at a chemical plant storage building):

Provide code/design requirements: _____

Add any other useful information that would be beneficial in understanding project requirements:
