Union offers an assortment of metal roof and wall panels to fit any application and aesthetic. Gauge, finish, and color options vary by panel profile. This selection guide outlines the available options for each panel profile to help customers identify the option that best fits their project.

1. **SELECT YOUR PROFILE:** Review the features and benefits of each panel profile, as well as warranty information, visit our website at unioncorrugating.com.
2. **SELECT YOUR PREFERRED COLOR:** Final color selection should be made from metal color chip samples. Contact your local Sales Representative for assistance. All Signature® 200 and 300 colors are Cool Roof compliant through the CRRC-1 Program. Visit coolroofs.org for more details.
3. **SELECT THE OPTIMAL GAUGE:** Your project application will help determine the optimal panel gauge to achieve expected performance targets. Our Sales Representatives are available to find the right panels to fit your building’s exterior aesthetic and structural requirements.
