

## COLOR AVAILABILITY BY PROFILE & GAUGE

Panel gauges noted below with a dot are standard within the plant network. Lead times vary and will be confirmed upon ordering.

\* Orders for profile, gauge and color combinations not listed require a Special Order with special pricing, minimum quantities, and extended lead times. Please inquire.  
†Metallic colors incur an upcharge; panels and trim are directional and must be installed in the same direction to prevent perceived shade variances.

Union offers an assortment of metal roof and wall panels to fit any application and aesthetic. Gauge, finish, and color options vary by panel profile. This selection guide outlines the available options for each panel profile to help customers identify the option that best fits their project.

1. **SELECT YOUR PROFILE:** Review the features and benefits of each panel profile, as well as warranty information, visit our website at [unioncorrugating.com](http://unioncorrugating.com).

2. **SELECT YOUR PREFERRED COLOR:** Final color selection should be made from metal color chip samples. Contact your local Sales Representative for assistance. All Signature® 200 and 300 colors are Cool Roof compliant through the CRRC-1 Program. Visit [coolroofs.org](http://coolroofs.org) for more details.

3. **SELECT THE OPTIMAL GAUGE:** Your project application will help determine the optimal panel gauge to achieve expected performance targets. Our Sales Representatives are available to find the right panels to fit your building's exterior aesthetic and structural requirements.
