

COLOR AVAILABILITY BY PROFILE & GAUGE
unioncorrugating.com

888-685-7663

Panel gauge in bold text is a standard option for the profile and color combination. Lead times vary and will be confirmed upon ordering.

\* Panel gauge noted with a star requires a Special Order for the profile and color combination with special pricing, minimum quantities, and extended lead times. Please inquire.

Table with columns: PANEL, PROFILE, APPLICATION (Standing Seam/Roof/Wall/Soffit/Underhang/Interior), FASTENER SYSTEM (Exposed/Concealed), Color swatches (White, Black, Blue, Brown, Gray, Green, Red, White), and Lead time values for each combination.

Union offers an assortment of metal roof and wall panels to fit any application and aesthetic. Gauge, finish, and color options vary by panel profile. This selection guide outlines the available options for each panel profile to help customers identify the option that best fits their project.

- 1. SELECT YOUR PROFILE: Review the features and benefits of each panel profile, as well as warranty information, visit our website at unioncorrugating.com.
2. SELECT YOUR PREFERRED COLOR: Final color selection should be made from metal color chip samples. Contact your local Sales Representative for assistance. All Signature® 200 and 300 colors are Cool Roof compliant through the CRRC-1 Program. Visit coolroofs.org for more details.
3. SELECT THE OPTIMAL GAUGE: Your project application will help determine the optimal panel gauge to achieve expected performance targets. Our Sales Representatives are available to find the right panels to fit your building's exterior aesthetic and structural requirements.
