

# Metal Building Components

Union now offers a full range of secondary structural framing components including Cees, Zees, Receiver Channel and Eave Struts in custom lengths to reduce field cutting. These components are available in standard punch patterns or can be custom slotted or punched to reduce field drilling.

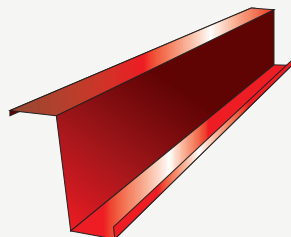

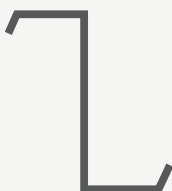

- C and Z purlins
- Receiver Channel
- Eave Struts
- Base Angle
- Hat Channel
- 12, 14, and 16 gauge
- Red Oxide or galvanized
